Babies are dying of hypothermia. Cats have joined stray dogs in eating the dead. The last functioning hospital in the north has been burned down.

Amidst this ever-worsening holocaust in Gaza, the media & politicians want us to believe Canadian Jews are the real victims. In an egregious example, the Winnipeg Sun just published “Dahlia Kurtz mobilizing pushback on Canada’s Jew-hate problem.” Palestinian suffering is omitted from the long profile of an unhinged Jewish supremacist. The article describes Kurtz combating “‘Free Palestine’ hatefests” and selecting Justin Trudeau “winner of my 2024 Jew-Hater of the Year Award.”

Over the past 15 months Kurtz has become a leader in Canada’s fascist movement, posting incessantly about purported Jewish victimhood and the anti-genocide “mob” who should be “deported”. A compulsive liar, Kurtz openly calls for state violence against those challenging Canadian complicity in genocide. On Friday she posted a video that appeared to show dark skinned teenagers fighting in Edmonton mockingly describing the incident as “a celebration of diversity”. A week earlier she posted a photo of neo-Nazis rallying with the statement “‘MASS DEPORTATIONS NOW’ banner at mall in London, Ontario. Who’s with them?”

A major paper profiling this fascist, Jewish supremacist, fifteen months into the holocaust in Gaza speaks volumes of the media climate. In a search of the Major Canadian Dailies database since October 7, 2023, the word “antisemitism” came up 4,217 times while “anti-Semitism” was referenced 238 times. During that time the Globe and Mail, Toronto Star, Ottawa Citizen and other newspapers included in the database used the word “Palestine” 3,501 times. The words “genocide” and “Israel” elicited 2,139 mentions while “famine” and “Gaza” only had 311 mentions.

Over the past fifteen months Pierre Poilievre has denounced antisemitism far more often than the wholesale slaughter of Palestinians. The Conservative party leader is now even calling to “defund” universities that allow speech that makes Jewish Zionist students “feel uncomfortable”.

Giving greater focus to antisemitism than Palestinian suffering holds true of the prime minister as well. On his X account since July Justin Trudeau has condemned alleged or real acts of antisemitism nine times (my attempt to search his X account beyond July was blocked). He used words like “appalling”, “vile” and “disgusting” to describe these incidents (he also posted criticizing Hamas, Samidoun and Iran a half dozen times). During this period Trudeau didn’t express concern for Palestinians a single time on X (one vague mention of a ceasefire implied

Steven Pinker on "antisemitism at Harvard"

For what it's worth, I have experienced no antisemitism in my two decades at Harvard, and nor have other prominent Jewish faculty members. My own discomfort instead is captured in a Crimson essay by the Harvard senior Jacob Miller, who called the claim that one in four Jewish students feels “physically unsafe” on campus “an absurd statistic I struggle to take seriously as someone who publicly and proudly wears a kippah around campus each day.” The obsession with antisemitism at Harvard represents, ironically, a surrender to the critical-social-justice credo that the only wrong worthy of condemnation is group-against-group bigotry. Instead of directly rebutting the flaws of the anti-Zionist platform, such as its approval of violence against civilians and its historical blind spots, critics have tried to tar it with the sin of antisemitism. But that can devolve into futile semantic disputation about the meaning of the word “antisemitism,” which, our council has argued, can lead to infringements of academic freedom.

@OmarHamadD

Omar Hamad | عُمر |
 @OmarHamadD

The most despicable form of genocide has recently come to light with the spread of a drug called Oxycodone among the population. Israel has reportedly been smuggling it in through bags of flour provided as aid.

As a pharmacist, let me explain what this drug is: it belongs to the opioid family and is used to relieve severe pain when regular painkillers fail—especially for cancer patients.

But the problem with this drug is that it acts on specific receptors in the nervous system, causing severe addiction, a decrease in heart rate, impaired awareness and consciousness, and dangerous respiratory depression.

Its side effects are numerous and can transform a person into something unrecognizable—a shell of who they were.

It has also been revealed that the drug is not only hidden inside flour bags, but the flour itself appears to be mixed with it.

Our battle with them is not only a battle of weapons, but also a battle of awareness and consciousness. They are masters at numbing our minds, distorting our perception, and using every means possible to erase our collective awareness and turn us against one another.

Today Lyons announced she was retiring as Special Envoy on Preserving Holocaust Remembrance and Combatting Antisemitism. It comes three months before the end of her two-year mandate.

Over the past twenty-one months Lyons has gone ever further down the path of open holocaust promotion. In an incredible move, last month she used her public office to lobby the police to exempt genocidaires from Canadian law. Lyons pressured the RCMP not to investigate Canadians who fought in Gaza under the War Crimes and Crimes Against Humanity Act.

They had me fired. Arrested 4 times. Suspended my medical licence. Smeared me in every paper.

Now the British Zionist Jewish lobby is attacking my fundraiser!

It cost me £90,000 to defend my licence. I live on what remains of my life savings.

I set up a Chuffed fundraiser to tackle police harassment and keep me on my feet. Campaign Against Antisemitism (CAA) is now threatening Chuffed with police action.

They want to destroy me.

I am a Palestinian and a British citizen. I have never had a patient complaint. Never broken the law. Worked for 7 years in the NHS. Cared for my fellow British citizens. Paid my taxes.

My crime?
I opposed genocide and Jewish supremacy.
Exposed their grip on Britain.

Whenever Israel's killing tons of civilians the western media always start churning out articles about antisemitism and Jewish feelings.

How much does war sparks antisemitism? Jews begin to wonder: Is anywhere safe?

Israel in Canada is the problem.

There's no evidence of who did this. Based on experience, I believe it is most likely a false flag op.

Last night's shooting incident against a Jewish activist's owned business in Toronto is already the 12th of its kind in the latest wave of antisemitism and violence against the Jewish community in Canada!

I'd like to know how many of those who experienced such negativity were actively supporting Israel's genocide. It fucking matters because anyone supporting the annihilation of entire peoples deserve everything coming at them from people of conscience. So, context matters and we deserve to know, not to mention the fact that hate crimes against Muslims have skyrocketed and pretty much been off the charts since 9-11, without anyone raising a fuss.

didn't think I'd live to see the day, but here it is. finally. the truth we've always known and tried to tell is finally bubbling to the surface, and it's happening despite the enormous influence of zionists on the media, and the hundreds of millions they're spending trying to stop it.

Israel Exposed • @xIsraelExpose... • 1d

It's happening.

Americans are waking up to Israel's control of their government, and there is very little Israel can do to stop it. De-zionization is inevitable.

Jewish Israeli soldiers systematically raped European citizens while they were in Israeli custody, and there's total silence from European media and European governments.

Everything Palestinians have said about Israel and about western governments is proving to be true, right before the world's eyes.

They're demons.

That makes a huge difference when you're dealing with a fragile and paranoid population who see scarves and watermelon pins as "hate crimes".

Why?

Could it be because Israel destroys entire cities and kills tens of thousands and every synagogue in Canada supports it? Maybe?

Ross McLean @McLeanChronicle · 1d

Synagogue attack in Toronto, window smashed, police on scene, day before Walk with Israel. Jews walking by asking “Why” we give so much to this city. Lots of Jewish children seeing it.

Who is paying people to shoot up synagogues in Toronto? Some things to consider:

1. Israel benefits when Jews around the world are targeted.
 2. Israel has a long history of targeting Jewish sites (Palestine in the 1920s & 1940s, Iraq in 1950s, Iran in 2026) in false flag operations.
 3. Israel is scared of losing their leverage over world Jewry.
 4. Israel aggressively seeks to create pro-Israel governments around the world via the antisemitism industrial complex.
 5. Israel supporters also frequently carry out false flag antisemitic operations against Jews.

If I was a betting man, I'd bet these attacks are the work of Israeli intelligence or Israel enthusiasts.

This is further suggested by the nature of the attacks: they targeted the exteriors of buildings, no people were hurt or even targeted. The shooters were bought and paid for.
